

LOVE YOUR GREEN FRIENDS?

Here are some tips to keep
them thriving!

TIP 1

LIGHT MATTERS

**Bright but indirect light.
Keep your plants near a
window with filtered
sunlight.**

TIP 2

WATERING WISELY

**Water when the soil is dry.
Overwatering is the #1 plant killer!**

TIP 3

ROTATE REGULARLY

Rotate your plants. This helps them grow evenly towards the light.

TIP 4

PRUNING IS KEY

Prune dead leaves. It encourages new growth and keeps your plant tidy.

HAPPY PLANTING!

Keep these tips in
mind and watch your
plants thrive!
